

Dispogel[®]

Urethral Lubricating Gel with 2% Lidocaine HCL

Dispogel is a sterile lubricant gel containing local anaesthetic (Lidocaine 2% and antiseptic (Chlorhexidine Digluconate 0.05%) Dispogel is available in 12.5 gram single use pre-filled bottles each presented in a sterile package.

- ✓ Dispogel is used for insertion into the urethra prior to insertion of a catheter or other medical instruments. The insertion of urinary catheters together with Dispogel Urethral Lubricant Gel with Lidocaine HCL (12.5g) health professionals minimise associated trauma, pain and catheter associated infections.
- ✓ After insertion of gel, wait for 5-10 minutes prior to insertion of a catheter or other medical instruments - time needed for achieving anaesthetic effect.
